## School Plan for Student Achievement (SPSA) Template

The School Plan for Student Achievement (SPSA) is meant to consolidate all school-level planning efforts into one plan for programs funded through the consolidated application (ConApp), pursuant to the California Education Code (EC) Section 64001 and the Elementary and Secondary Education Act as amended by the Every Student Succeeds Act (ESSA).

The purpose of the SPSA is to increase the overall effectiveness of the school program by crafting a strategic plan that maximizes the resources available to the school while minimizing duplication of effort with the ultimate goal of increasing student achievement.

The School Site Council (SSC) is required to develop and annually review the SPSA, establish an annual budget, and make modifications in the plan to reflect changing needs and priorities, as applicable, pursuant to EC 52853(b) and 52855.

California's ESSA State Plan significantly shifts the state's approach to the utilization of federal resources in support of underserved student groups. The SPSA provides schools with the opportunity to document their approach to maximizing the impact of federal investments in support of underserved students.

The implementation of ESSA in California presents an opportunity for schools to innovate with their federally-funded programs and align them with the priority goals of the school and the LEA that are being realized under the state's Local Control Funding Formula (LCFF).

LCFF provides schools and LEAs flexibility to design programs and provide services that meet the needs of students in order to achieve readiness for college, career, and lifelong learning. The SPSA planning process supports continuous cycles of action, reflection, and improvement.

# School Vision and Mission

Cathedral City High School, in partnership with parents and community members, is dedicated to providing an educational experience that guides students toward successful, fulfilling lives as responsible, productive, and global citizens. Students are expected to acquire academic, artistic, athletic, and technical skills in preparation for college and careers. A culture of health-consciousness and ethical behaviors is fostered by the school. The CCHS community values diversity and offers the training and experience that expands students' awareness to include an appreciation and acceptance of practices and points of view found in other parts of the world.

## School Profile

CCHS and the Palm Springs Unified School District work cooperatively in creating and updating pacing guides and benchmark assessments, as well as developing regulations and procedures in-line with the Education Code and California Department of Education guidelines.

Cathedral City High School opened in September 1991. Students are primarily drawn from the city of Cathedral City with a small group of students from the neighboring cities of Rancho Mirage and Thousand Palms. Cathedral City High School serves approximately 1350 students. Cathedral City High School is the only Gold Ribbon High school within the Palm Springs Unified School District as well as the only International Baccalaureate school serving the western Coachella Valley. Cathedral City High School was selected as a CA Distinguished School in 2024 and is the only school selected in the Coachella Valley with these honors, and one of only 293 in the state of California. Students taking advanced courses take a combination of International Baccalaureate and Advanced Placement courses in the four core courses as well as the elective areas. Approximately 400 students are taking advanced courses. Cathedral City High School also has two California Partnership academies serving students in the Health and Environmental area as well as Digital Media production. Both academies have been designated as Distinguished academies by the CDE. In addition, the Digital Arts and Media production academy is a "Lighthouse" Academy that provides the opportunity for other academies to model after. During the last WASC visit CCHS received a 6 year term with a mid term visit.

The CCHS faculty is committed to helping students achieve more success not only on state tests, but also by completing programs and pathways that will lead to more opportunities when they graduate. To emphasize this, the school's mission is "providing an educational experience that guides students toward successful, fulfilling lives as productive, educated citizens of their community. Students are encouraged to acquire academic, artistic, athletic, and technical skills, and to practice health-conscious and ethical behaviors. The CCHS community believes that valuing the different abilities and talents of all students promotes an understanding that respect and diversity strengthens a community and its individual members."

In accord with current best practices research, the CCHS staff has established cross-curricular and departmental collaborative teams that work as a Professional Learning Community (PLC) to examine data and to set school and achievement goals.

The Cathedral City High School School-wide Learner Outcomes are: (Reviewed: October 2017)

What all CCHS students should know and be able to do upon graduation:

Lion's Road to Success

Graduating Lions are prepared to:

Further their education.

All students have the ability to:

Read, write, listen, speak, and communicate effectively

Solve mathematical problems accurately

Use current technology.

All students can:

Correctly use computers and adapt to current technologies

Find, evaluate, and use a variety of software applications

Safely use the Internet and other sources to communicate globally

Enter the world of work and careers.

All students:

Understand the importance of proper work ethics and habits  
Know how to seek and secure employment, and conduct themselves in a professional manner  
Demonstrate positive attitudes and global citizenship

Live in a society of diverse cultures and customs.  
All students:  
Respect diversity  
Appreciate the art and music of the global community  
Value the history of their own culture and the cultures of others

## Purpose and Description

Briefly describe the purpose of this plan (Select from Schoolwide Program, Comprehensive Support and Improvement, Targeted Support and Improvement, or Additional Targeted Support and Improvement)

☑ Schoolwide Program

Briefly describe the school's plan for effectively meeting the ESSA requirements in alignment with the Local Control and Accountability Plan and other federal, state, and local programs.

Cathedral City High School Site Council (SSC) meets regularly during school year to review and update the school plan including proposed expenditures of Title I funds. School goals are based upon comprehensive needs assessment that includes the analysis of verifiable state data, including information displayed on the CA School Dashboard. Other district and school data, including interim assessments, are utilized to further measure and monitor achievement throughout the school year. School goals are aligned with PSUSD LCAP goals and include the same metrics/indicators. Input and advice is solicited from school advisory committees including the ELAC and School Leadership team. The CCHS School Plan addresses how LCFF and Title I funds will be used to improve the academic performance of all students and close student group achievement gaps.

AP Fees - this is to assist students who would like to sign up for AP fees but may not qualify for a fee waiver but by not assisting may cause students from signing up for multiple assessments.

Lamps for CC - due to the lighting in the classroom the MTSS teacher would like to adjust by purchasing some lamps as it may assist students. Research shows that when the lighting is right students are more willing to participate and feel like they are in a better space.

CASE Conference - Science - members of the science department would like to attend the conference as it is local and this years focus is on inspiration, integration and innovation.

Zenimal - Meditation pods - these are kid friendly, screen free, portable, guided meditation players that assist students in finding a relaxing, mindful space when they are feeling stressed.

Printers - place additional printers in the library to assist students when students need to print. Our printers are out of date and adding new and a few additional printers will allow students to meet the demanding academic needs for continued improvement.

DeepL pro - translation services - We send many documents home, many of which are legal documents and in order to improve efficiency the special education department is requesting these services to assist in reducing the number of hours required to translate documents.

Based on input from School Site Council, Instructional Council and parent input CCHS will continue to allocate funds to support credit recovery efforts through interventions. Our groups have made recommendations to continue to support students and families with Social Emotional learning, college and career resources and standardized testing supports.

## Resource Inequities

Briefly identify and describe any resource inequities identified as a result of the required needs assessment, as applicable.

As a result of the pandemic students continue to need options for credit recovery and remediation. For 2024-25 school year we will continue the focus on students who are English Learners and are our low socio economic status students to provide support academically and social emotional. Additional intervention support will be provided Wednesday mornings during staff collaboration time, after school, and weekends. Students will receive targeted support in English Language Development to support successful completion of a-g requirements and to be college and career ready. We will continue to offer intersession courses that will assist with credit recovery and focus on small group learning targeting first our English Language Learner groups. In addition students receiving SEL support through comprehensive lessons focused on social emotional and academic issues. We have increased the use of restorative practices on a school wide basis and continue to utilize conflict mediation and equity ambassadors to assist with resolving conflicts.

## Needs Assessment – Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the California School Dashboard, progress toward SPSA goals, local self-assessment tools, stakeholder input, or other information, what progress is the school proudest of, and how does the school plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for student groups, including low-income students, English learners, and foster youth have led to improved performance for these students.

### Reflections: Success

Based on the WASC Accreditation visit, the findings indicate that stakeholder pride in Cathedral City High School is at high levels. This includes: students, parents, staff subgroups. Additionally the visiting team cited strengths in special program offerings for all student groups.

Intersession data indicates 100% + increase in successful completion of courses offered. This directly impacts graduation and a-g rates. Winter Intersession had over 100 students participate and 75% of them were classified as English Language Learners, SED and homeless youth. During Spring Intersession over 100 students were invited to participate and 60 students successfully completed, with 50% of them being English Language Learners, SED and homeless youth. More than half of the student completers are designated as English Learners. The impact of increased performance for English Learners and Hispanic subgroups has boosted confidence in the ability of our students since we were designated as a CA Distinguished School in March. STAR data indicates that students are making significant strides in English and Math performance we interpret this to be an indicator of higher performance on the 2024 CAASPP. Our math intervention position has had success in reducing the D/F rate by utilizing a rotation model for interventions. We have also seen success in small group implementation.

Teachers continue to report that in 9th grade ELA students are working more independently and having greater success in class based on the Study Sync aligned assessments. Teachers report successful classroom discussions using the Teen Talk curriculum for 9th grade. They stated that student questions and interactions were engaging. Teachers report success in online curriculum modifications due to effective professional development offered by the school district. In addition to academic support, using the MTSS coach we implemented structured restorative practices and lessons for all 9th and 10th grade students. We have increased implementation of MTSS to include 11 and 12 grade students through History classes. The implementation has led to higher attendance and lower suspension/expulsion rates for our 9th and 10th grade students. The continued refinement of peer mediations to address conflict mediations have shown a decrease in conflict and fights. We have seen success through additional small group program support regarding anger management and positive decision making skills. Additional targeted support has been assisted us in exiting our ATSI status.

SSC has also agreed to shift funding from the LCFF section in our allocated prep buy outs to support students exploration of college and careers as well as support our IB CAS exploration. The additional support for college and career exploration has had a direct impact on student performance as students realize the access to college is more available with academic success.

We will continue to refine and adapt the MTSS lessons to increase access to all grade levels. Students in upper grade levels have been exposed to the MTSS and will continue to have access

Referring to the California School Dashboard, identify: (a) any state indicator or local performance indicator for which overall performance was in the “Red” or “Orange” performance category or any areas that the school has determined need significant improvement based on review of state indicators, local performance indicators or other local indicators AND (b) identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the school planning to take to address these areas of low performance and performance gaps?

## Reflections: Identified Need

We continue to support additional areas for students to achieve graduation and a-g eligibility. We have determined that a significant portion of our students continue to require social emotional support. We will continue to address this through a certificated staff person who oversees Club CC which is district supported classroom for SEL interventions. Additional professional development will be offered to teachers in universal design for the implementation of classroom instruction and appropriate strategies for student success.

As we have reviewed our STAR testing data there has been a decline in the D/F rate, and we will continue to allocate instructional time for students by compensating teachers for their preparation time allowing targeted students, specifically our students with disabilities and our African American students opportunities for credit recovery as well as encouraging students through continued small groups. We will continue to work on our chronic absenteeism for our significant subgroups as well suspension rates. Our Prevention Specialist has been working with students to reduce suspension rates and will continue to work on voluntary courses for students to avoid suspension in the fall. We will be hosting small groups for students in our subgroups, students with disabilities, in order to improve STAR testing results as well as ELPAC and CAASPP through work with our English Language Learners and Students with Disabilities. Gaps in learning will be addresses in next year SPSA through the intervention plans as well as small class sizes by prep buy outs for departments and we will be utilizing our Math intervention position to assist with increasing math scores on the STAR as well as CAASPP. We are looking at data to inform our practices of our lowest performing student groups, and have set aside opportunities to increase test scores, decrease absences and suspensions.

After review of our newest data we are adding the additional Title 1 funding to support additional academic, additional books and supplies and increase in testing fee coverage. School Site Council has decided to support these interventions after review of testing data and review of grades from semester 1. This will focus on our English Learners and our Students with Disabilities. We have noticed that our Students with Disabilities have attendance issues almost double that of our students without disabilities. We will continue to work on reaching out to families and provide additional interventions and information to determine what is needed to assist students with attendance. We have added individual phone calls to families of English Learners in order to ensure families are aware of opportunities being offered for English Learners to work on grades and course work to work on a-g rates. We are continuing support for our IB and AP level students with additional study sessions. Our MTSS coach is spending additional time working with our English Learners to assist them if they are new to our school in adapting and ensuring they have resources and know where to go when assistance is required. The equity ambassadors also assist to ensure conflict is resolved through peer mediation.

SSC has agreed to continue the prep buy outs in order to lower class sizes to increase the targeted interventions. This will allow us to keep our classes for students with disabilities smaller. SSC has also agreed to continue to support students exploration of college and careers as well as support our IB CAS exploration.

SSC has also approved splitting extra duty hours to support interventions of our Students with Disabilities and our English Learners by adjusting the funding of Certificated Personnel salaries to be half for Certificated Personnel and half for Classified Personnel in order to continue supporting contacting parents and families regarding the intervention opportunities.

## Student Population

The 2023 California School Dashboard provides parents and educators with meaningful information on school and district progress so they can participate in decisions to improve student learning.

The California School Dashboard goes beyond test scores alone to provide a more complete picture of how schools and districts are meeting the needs of all students. To help parents and educators identify strengths and areas for improvement, California reports how districts, schools (including alternative schools), and student groups are performing across state and local measures.

This section provides information about the school's student population.

## Overall Performance

The 2023 California School Dashboard provides parents and educators with meaningful information on school and district progress so they can participate in decisions to improve student learning.

The California School Dashboard goes beyond test scores alone to provide a more complete picture of how schools and districts are meeting the needs of all students. To help parents and educators identify strengths and areas for improvement, California reports how districts, schools (including alternative schools), and student groups are performing across state and local measures.

Performance on state measures, using comparable statewide data, is represented by one of five colors. The performance level (color) is not included when there are fewer than 30 students in any year. This is represented using a greyed out color dial with the words “No Performance Color.”

# Annual Review and Update

SPSA Year Reviewed: 2023-24

## Goal 1 – Increased Academic Achievement

The goal for CCHS is to increase literacy across all content areas as this goal aligns with the district instructional focus statement and the overall implementation of Common Core State Standards. Additional instructional support and materials will be provided to English, math, science and ELD departments to effectively augment instructional practices that are CCSS aligned.

## Analysis

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Over the course of the school year we have continued to increase opportunities for students to recover a-g courses. We have continued to offer intersession support as well as after school. The goal is to lower class sizes during the school year while offering students opportunities to recover credits for both graduation and a-g. We have continued to offer core departments time for PLC work as well as preparation for increased CAASPP exposure. During intersession we had 106 students increase grades to C, which led to overall less D/F at the semester. We have continued to offer students the opportunity to improve understanding of concepts for CAASPP items as well as ELPAC. Students have continued to feel an overall increase in their ability during assessments. AP/IB students have also been offered the opportunity to improve understanding of material for their assessments, feeling more prepared to engage in their assessment. Students have enjoyed the opportunity to explore colleges as well as careers, with an increased focus on careers.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

The SSC made some allocation adjustments based on assistance provided for prep funding buy outs by the district office. They were able to re-allocated some funding to provide additional field trips for students. Due to a raise in salaries some of the funding had to be adjusted to account for the additional increase in cost of personnel. We have money that has yet to be reconciled at this time.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

### Goal 2 – Parent Engagement

The Parent Involvement and Participation site plan includes the following goals: 1) Involve parents in the program; 2) Update a school-parent compact with parent input; 3) Build capacity for parent involvement; and 4) assure accessibility and opportunities to the school for parents.

Site goals for parent participation also align with the parent and community partnerships goal outlined in the district's LCAP. additional board policy directives post covid 19 as procedures will be likely to change.

We have set a goal to use the School Messenger telephone notification system to advise our parents and guardians of the activities we hold on campus. We also have planned to increase parent attendance at parent activities by ten percent. In addition, increased online communication through our school website will allow parents ample time to plan for events and meetings. CCHS will work to increase the parent participation in The Panorama Survey by double within the next year.

## Analysis

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

CCHS has various parent meetings that support academic and extra curricular programs. We have increased our parent outreach with phone calls directly to parents, which has improved parent attendance. Continuing to offer a blended model of meetings for parents to choose from has been beneficial. We will be ensuring that printed materials are sent home for parents regarding all CCHS communications. After our first few years operating our social emotional learning center we have expanded the use of the center and have worked to provide outreach to families. We continue to look at opportunities for small groups to support families through a number of areas including SEL and attendance. We have continued to utilize our prevention specialist to connect families to outside resources.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

We have not reconciled the resources for this goal as of year, however there are items that will be utilized towards the end of the school year that will rectify that. We have utilized a majority of online notifications this year.

## Goal 3 – Safe and Healthy Learning Environment

All students at Cathedral City High School will be educated in a safe and drug-free learning environment. Students will have increased opportunities to participate in extended learning, extra curricular and academic outreach offerings that will address academic student learner needs in a safe school environment. CCHS will continue to work with the prevention specialist to decrease the percentage of chronically absent students. This includes small group meetings with students, parent meetings, site visits and referrals to SARB.

## Analysis

Describe the overall implementation of the strategies/activities and the overall effectiveness of the strategies/activities to achieve the articulated goal.

Over the course of the school year we have made a concerted effort to coordinate services with the Prevention Specialist, the COSA, and the MTSS facilitator. This has allowed students to make healthier decisions. Our Equity Ambassador program has impacted the number of students who are making healthy decisions and had a greater impact on overall student well being. There is evidence that the reduction in suspensions as well as increase in attendance are a direct result of the work with these programs. While we have improved in coordinated outside services this year there is still a need for additional and ongoing services. As a result, we will continue to expand the reach of our peer mediators and counselors to impact student relations. Club CC has already expanded the systematic SEL Support for students from grade 9 to grade 9 and 10. Next year, we want to add grade 11 into the fold as students that have exited the intensive SEL from grade 9 still need services.

Briefly describe any major differences between the intended implementation and/or the budgeted expenditures to implement the strategies/activities to meet the articulated goal.

It is difficult to determine exact amounts as for some items they all show up as timecards. This year the raise also adjusted the amount spent on salaries that may differ from original costs. Some of our interventions were out of alternate funding, which allowed us to move around some funding.

Describe any changes that will be made to this goal, the annual outcomes, metrics, or strategies/activities to achieve this goal as a result of this analysis. Identify where those changes can be found in the SPSA.

While we have improved in coordinated outside services this year there is still a need for additional and ongoing services.

# Goals, Strategies, & Proposed Expenditures

## Goal 1

Increase Academic Achievement

### Goal Statement

The goal for CCHS is to increase literacy across all content areas as this goal aligns with the district instructional focus statement and the overall implementation of Common Core State Standards. Additional instructional support and materials will be provided to English, math, science and ELD departments to effectively augment instructional practices that are CCSS aligned.

### LCAP Goal

All Palm Springs Unified School District students will demonstrate mastery of grade level content and will graduate high school prepared with the academic and technical skills necessary for college and career success.

### Identified Need

1. Additional support in English Language Arts for our English Learners, and our Students with Disabilities through targeted interventions, including utilizing UDL and small group models.
2. All students require additional support in math. We are providing small group instruction for students in our IM I and IM II classes in order to offer differentiation support.
3. Data indicates a significant increase in a-g completion rate. Support for our students in a-g completion will continue. We will utilize the support of our EL counselor to target our English Learner subgroup, as well as "Mission Graduate" for our English Learner subgroup. In addition we have implemented a strategy to track progress of our Mission Graduate students.
4. Data indicates a decrease in percentage of pass rate for AP. Support our students who are in AP/IB classes in order to gain higher success rates on AP/IB test passing rates. Support to increase AP/IB pass rates by 5%. Over the course of this school year we have experienced more participation in Advanced Placement and IB courses than in 2023-24. Students are beginning to rebound from the fear of higher level classes. However they are still in need of additional support for upper level classes.
5. Increase the number of students in all groups who are CCI prepared. Increase prepared students by 5%.

# Goals, Strategies, & Proposed Expenditures

## Goal 2

Increase Parent and Community Partnerships

### Goal Statement

The Parent Involvement and Participation site plan includes the following goals: 1) Involve parents in the program; 2) Update a school-parent compact with parent input; 3) Build capacity for parent involvement; and 4) assure accessibility and opportunities to the school for parents.

Site goals for parent participation also align with the parent and community partnerships goal outlined in the district's LCAP. additional board policy directives post covid 19 as procedures will be likely to change.

We have set a goal to use the School Messenger telephone notification system to advise our parents and guardians of the activities we hold on campus. We also have planned to increase parent attendance at parent activities by ten percent. In addition, increased online communication through our school website will allow parents ample time to plan for events and meetings. CCHS will work to increase the parent participation in The Panorama Survey by double within the next year.

### LCAP Goal

Palm Springs Unified School District will collaborate with families and our local communities to develop and maintain positive parent, student, and community involvement and engagement to promote and support student success.

### Identified Need

1. Continue work with our prevention specialist to address attendance issues and increase education around attendance.
2. Provide opportunities for students to complete high school utilizing resources within and outside our district. CCHS will increase the percentage of students completing "Mission Graduate" as well as Edgenuity courses.
3. Identify methods for connecting families to school and providing opportunities for families and schools to work together to increase communication.
4. CCHS will continue to provide on campus opportunities for parent involvement. Including: on campus student of the month celebrations, ELAC awards, and live performances.

CCHS will continue to work to improve student attendance rates by .5% within the next year. This past year we met our attendance goal of decreasing chronic absenteeism and our goal remains to continue decrease the chronic absenteeism rate and overall attendance rates. CCHS will continue to track 4 year drop out rate and decrease to 1%. CCHS will add an additional WASC parent focus groups in order to increase school connectedness to 95%.

New for 2024-2025, CCHS is planning a teacher-led Saturday Parent Workshop. The event will take place in the fall so as to capture parent interest early in the academic year. The event will be an opportunity for parents to learn about the current programs at CCHS in a friendly environment with their students present. The morning will begin with a parent rally in the gym complete with our student pageantry groups applauding them as they walk through the inflatable Lion Head into the gym. This is a tradition for all new students as they begin their tenure at CCHS and we want the parents to experience the tradition as well. After the rally, parents will chose workshops with two sessions in the morning. Workshops will be bi-lingual as a support to the majority of our community. At the end of the second workshop, a community BBQ will take place with staff and parents as we will strengthen relationships with our community in the hopes of on-going parent involvement. The workshop sessions are being developed with input from administration, teachers and staff, students and parents from the School Site and ELAC Councils.

We plan to make this event another CCHS yearly tradition.

# Goals, Strategies, & Proposed Expenditures

## Goal 3

Maintain Healthy and Safe Learning Environment

### Goal Statement

All students at Cathedral City High School will be educated in a safe and drug-free learning environment. Students will have increased opportunities to participate in extended learning, extra curricular and academic outreach offerings that will address academic student learner needs in a safe school environment. CCHS will continue to work with the prevention specialist to decrease the percentage of chronically absent students. This includes small group meetings with students, parent meetings, site visits and referrals to SARB.

### LCAP Goal

Palm Springs Unified School District will provide healthy and physically and emotionally safe learning environments that foster and support all students.

### Identified Need

1. Continue to address the behavioral needs of our students with PBIS and SEL interventions in Club CC.
2. Further develop school connected activities for campus inclusion of all students.
3. Through school survey data continue to increase campus safety and connectedness.
4. Continue to work with the prevention specialist to continue to decrease the percentage of chronically absent students. This includes small group meetings with students, parent meetings, site visits and referrals to SARB.

CCHS will address suspension inequities by continuing peer mediation/peer counseling as proactive interventions. CCHS will again train peer counseling/peer mediation group to intermedate with their peers before more severe consequences must be applied.

# School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

- 1 School Principal
- 4 Classroom Teachers
- 1 Other School Staff
- 3 Parent or Community Members
- 3 Secondary Students

Name of Members	Principal	Classroom Teacher	Other School Staff	Parent or Community Member	Secondary Students
Fides May Le Roy		X			
Raymond Franz		X			
Matt Howe		X			
Karilyn Dangleis		X			
Guillermo Chavez	X				
Brenda Ramirez				X	
Claudia Garcia				X	
Ana Hernandez				X	
Jose Ortega			X		
Jazmine Leos					X
Alexandra Isabella Ramirez					X
Victor Gonzalez					X
<b>Numbers of members of each category:</b>	<b>1</b>	<b>4</b>	<b>1</b>	<b>3</b>	<b>3</b>

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

# Recommendations and Assurances

The School Site Council (SSC) recommends this school plan and proposed expenditures to the district governing board for approval and assures the board of the following:

The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.

The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the School Plan for Student Achievement (SPSA) requiring board approval.

The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:

**Signature**  

**Committee or Advisory Group Name**  
English Learner Advisory Committee

The SSC reviewed the content requirements for school plans of programs included in this SPSA and believes all such content requirements have been met, including those found in district governing board policies and in the local educational agency plan.

This SPSA is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

This SPSA was adopted by the SSC at a public meeting on 4/29/24 (5/13/24).

Attested:

Principal, Guillermo Chavez on 5/6/24

SSC Chairperson, Claudia Garcia on 5/6/24

# Title I and LCFF Funded Program Evaluation

**Goal #1:**

The goal for CCHS is to increase literacy across all content areas as this goal aligns with the district instructional focus statement and the overall implementation of Common Core State Standards. Additional instructional support and materials will be provided to English, math, science and ELD departments to effectively augment instructional practices that are CCSS aligned.

<b>Actions/ Activities (Strategies)</b>	<b>What is working and why? (Effective indicators)</b>  <i>Specific evidence/indicators of success/effectiveness in implementing this activity or strategy, including:</i>	<b>What is not working and why? (Ineffective indicators)</b>  <i>Specific evidence/indicators showing that this activity or strategy is not working, including:</i>	<b>Modification(s) based on evaluation results</b>  <i>Continue or discontinue and why?</i>
Fund the IB Diploma Program (DP) and meet IB certification criteria.	Continued access for all populations of students to participate in the IB program. Looking at data to encourage participation in high level courses - such as PSAT and previous course grades	Students are still hesitant to take high level courses due to additional work.	The IB Coordinator has been meeting with the counselors and students to encourage students to participate in high level IB courses. Providing information on benefits for taking a high level course.
Send teachers to professional development opportunities to support Common Core Instruction addressing the needs of students for all grade levels (i.e. curriculum development, Common Core, IB and Qtel and CABE)	We have had teachers participate in district offered Common Core Instruction. All teachers have had the opportunity for access due to online offerings. We are continuing to send teachers to other trainings such as IB and AVID trainings and working on expanding the number of teachers trained.	We have had a difficult time getting parents to be involved and we were unable to get parents to attend meetings or be able to send them to conferences.	We will continue to offer staff professional development opportunities and send additional teachers to training based on previous training dates but will adjust our parent outreach activities and opportunities.
RTI, extended learning and buyout of prep periods for increase in math and science instruction to increase student achievement and STEM focus	We were able to offer prep buy outs which significantly reduced class sizes as well as offer outside learning opportunities for students as well as allow students to work on remediation.	Buying preps has allowed us to keep class sizes down as well as offer students the opportunity to remediate in a class setting rather than having to wait for summer opportunities.	We will continue to lower class sizes through prep buyouts and offer alternative remediation opportunities.
Fund prep buyouts to lower class size in core classes such as Math, Science, English, World Language and Social Sciences	We were able to offer students opportunities to remediate a-g courses through interventions and intersessions.	We are continuing to offer opportunities for remediation.	We will continue to offer opportunities to remediate and increase a-g rates as well as college and career options.
Hire 1 Social Science Teacher	We were able to offer prep buy outs which allowed for continued smaller class sizes.	We will have a need to reduce class sizes due to reduction in staff.	We will continue to offer smaller class sizes in core subject areas.

Provide opportunities for all students to access AP and PSAT	The additional teacher allows us to reduce the class sizes in social sciences.	This is allowing us to keep class sizes lower for all of our courses in this department.	We will continue to offer this position for next year.
Provide additional supplies and materials for Common Core implementation and instructional support to address literacy needs across content areas and all departments. Purchase instructional materials, text and supplies for specialized emphasis on standards alignment and implementation in Special Education, English, math, Art, ELD and science, purchase supplies and materials for project based learning across subject areas.	Reaching out to all students to provide information on benefits to assessments and encourage students to take all offered options	Continue to have conversations regarding the benefits of assessments and encourage students to look at schools they would like to attend to determine if assessments may assist in admissions.	We will be continuing to find ways to reach all of our students to bring awareness to opportunities that are being offered and assist students to ensure they can take all assessments that are offered.
Provide students with additional opportunities to explore college and career options	The additional supplemental materials assist teachers in offering a well rounded curriculum supporting the various needs of our students.	Not all courses have sufficient supplemental materials.	We will continue to provide additional supplies and materials to all of our teachers across the content areas.
Student support of a-g completion and purchasing materials to support student access and success in CCI completion	We have successfully offered opportunities for all students to access college and career options.	Not all of our students have access to opportunities to explore college and career options so this was a necessity.	Students were able to successfully return to exploration opportunities of colleges and careers.
provide opportunity for small group learning and opportunities to increase a-g	We continue to support for students who require remediation for credit and a-g completion was available. All students had multiple opportunities through the online learning options.	Variables impacted student participation and success rate.	We will continue to offer multiple methods of remediation to improve student success of a-g completion. We will continue to offer the methods that we found successful for students.
Hire 0.8 position in Math	We offer a variety of intervention and credit recovery opportunities for all students.	Students are invited to participate in credit recovery opportunities and interventions and we will continue to look for methods to invite and enhance participation rates.	We will be working with students to provide preparation to assist in improving their college eligibility and remediation opportunities. All students will have the opportunity to participate if they wish.
	This allowed for smaller class sizes.		We will continue to offer this position as it allows for class size reduction.

**Goal #2:**

The Parent Involvement and Participation site plan includes the following goals: 1) Involve parents in the program; 2) Update a school-parent compact with parent input; 3) Build capacity for parent involvement; and 4) assure accessibility and opportunities to the school for parents.

Site goals for parent participation also align with the parent and community partnerships goal outlined in the district's LCAP. additional board policy directives post covid 19 as procedures will be likely to change.

We have set a goal to use the School Messenger telephone notification system to advise our parents and guardians of the activities we hold on campus. We also have planned to increase parent attendance at parent activities by ten percent. In addition, increased online communication through our school website will allow parents ample time to plan for events

and meetings. CCHS will work to increase the parent participation in The Panorama Survey by double within the next year.

(Ineffective indicators)</b>  <i>Specific evidence/indicators showing that this activity or strategy is not working, including:</i>	<b>Modification(s) based on evaluation results</b>  <i>Continue or discontinue and why?</i>
Increase parent awareness and communication	The modes of communication through email and autodialer has increased parent awareness. Parents have stated that they appreciate the communication. Ensuring that our website is updated regularly and has additional information has assisted with ensuring parents have information.	We are continuing to reach out to parents / community to increase participation however participation rates are still low and we are looking at alternatives. We are working on ensuring our website is always up to date with the latest information and we are encouraging parents to also look there for info.	We will continue to work with parents regarding awareness and communication through our multiple methods. We are working to set a schedule for communication with our office staff to assist with more individual phone calls. We are working on ensuring our website is always up to date with the latest information and we are encouraging parents to also look there for info.
Purchase of material, resources and supplies for the Parent Involvement Center to open communication and educate parents regarding importance of high school completion and a-g completion	Additional resources have allowed us to reach more parents and continue to provide education opportunities for parents and have opened communication with families.	We have continued to focus on attendance and SEL.	As participation has been not as robust as we wished we will continue to reach out to families and encourage participation in a variety of ways. Additional individual communication is being planned.
increase opportunities for parent engagement through activities and small group conversations	We ensure that information is out in advance and communication is accessible for all parents / families to encourage participation in events. We are continuing to update parent supplies and required materials for all parents.	It has been difficult to get back to the levels of participation from the past, and we will continue to encourage family participation. We are continuing to update contact information and at times find it difficult.	We are continuing to fund extra duty hours to ensure we have events staffed in order to provide access to all families. We have been successful in lower chronic absenteeism and we will continue to work with families on assisting with areas of need.

**Goal #3:**

All students at Cathedral City High School will be educated in a safe and drug-free learning environment. Students will have increased opportunities to participate in extended learning, extra curricular and academic outreach offerings that will address academic student learner needs in a safe school environment. CCHS will continue to work with the prevention specialist to decrease the percentage of chronically absent students. This includes small group meetings with students, parent meetings, site visits and referrals to SARB.

(Effective indicators)</b>  <i>Specific evidence/indicators of success/effectiveness in implementing this activity or strategy, including:</i>	<b>What is not working and why? (Ineffective indicators)</b>  <i>Specific evidence/indicators showing that this activity or strategy is not working, including:</i>	<b>Modification(s) based on evaluation results</b>  <i>Continue or discontinue and why?</i>
Classified support for attendance monitoring to facilitate and promote healthy decisions.	Many classified staff have worked additional hours calling parents and assisting with attendance issues as well as hybrid or distance learning choices. We will continue to fund our additional hours for the position.	Limited access due to phone number changes, technology issues and address changes. We are working to update address / phone numbers but it has been difficult.	We will continue to support additional funding for monitoring attendance of students and promoting healthy choices.
Training of Student Equity Ambassadors to provide peer mediation and support school connectedness	Equity Ambassadors have been trained to support social emotional learning of the general population of students.		We will continue to offer training to the Equity Ambassadors as we support SEL and will continue to train more students on peer mediation information.
Counseling support services focusing on social and emotional wellness	Students have been identified through the counselor to receive additional counseling services with the district support team. We continue to communicate with students / families regarding opportunities for support.	High case loads continue to make this a difficult on going task.	We will continue to offer additional counseling service opportunities.
